Aim: Peacehaven Trust aims to provide person centred residential social care supports for one adult with a moderate intellectual disability as well as an EUPD diagnosis, and a trauma history. The resident is valued and supported to reach their highest level of self-determined independence, within safe clinically informed supports. The resident is cared for within a safe and enabling environment which promotes safeguarding, health and wellbeing. The aim is to support the resident physically, socially, emotionally and spiritually, while respecting their dignity and unique individuality.

Objectives: Peacehaven Trust provides best clinically informed practice; a standard of excellence in care and support in accordance with evidence based best practice, to provide a living environment that ensures that the resident lives in a comfortable, clean and safe setting.

Ethos: Lydia Cochran and Dorothy Blake opened the doors of Peacehaven in 1980 to provide residential social care within the community of Greystones.

They wanted to provide family style living for vulnerable adults and support their independent living. This vision found its direction and encouragement in the Hebrew prophet Isaiah, who wrote of God's promise that;

“My people will live in peaceful dwelling places,
in secure homes, in undisturbed places of rest”

This relationship of family and faith in God's providence gave us the heritage of the particular ethos that is Peacehaven Trust.

We are now a continually improving and developing organisation, responding to the highest contemporary professional standards. These are measured by HIQA so we are transparently accountable, openly recording errors and committed to remedy shortcomings through continuous professional development of our qualified staff.

Each person living in Peacehaven Trust has their own religious beliefs and their personal view of the world. Our shared humanity, citizenship rights, rights of social inclusion and freedom to develop positive relationships are supported here by Peacehaven Trust's core belief that;

“The fruit of the Spirit is love, joy, peace, patience, kindness,
goodness, faithfulness, gentleness and self-control.”

Galatians 5:22-23

Commitment to this ethos promotes true safeguarding and person-centred care to enable development of the whole person and supports their

integration within our local community – in fulfilment of the original vision – our ethos of practical Christian care and love.

The resident has 24/7 1:1 staff support which provides time to review and update their PCP/goals as necessary or desired. This is done more often if needed. The plan is readily available to the resident as it is worked in consultation with them.

The resident's care plan is written with consultation with the resident, their representative and other relevant professionals. The plan is divided into separate titles, each title includes an assessment of the resident's abilities and needs.
